TPFF Review

[REDACTED], 2023

Loretta,

Please share our joy and thankfulness for your program to all.

My family and I are so very thankful for our recent participation in your Turning Point For Families "Intense 4-day" reunification program in Texas.

Your dedication, experience, and concern for our whole family resulted in a very positive outcome for the start of our family reunification.

The fact that our family was all together 24 hours a day in our own temporary quarters for the entirety of the 4 and a half days was a blessing.

Your daily presentations were right on point, and clearly understandable to all. The fact that your insistence that our daughter, the alienated mother, conduct and lead the daily sessions and activities was impeccable.

Us grandparents and two close family members were able

to learn, understand and participate in the daily activities throughout our time there.

There were many tears and some very hard discussions. There was very slow progress, but good progress during the four days.

The afternoon program each day where my daughter and her children choose activities away from the home were such a success. My grandchildren interacted closely with their mother. They smiled, laughed with her and showed many other good signs which we all have missed for almost two years. Us grandparents, the other family relative and you gave them plenty of space where they could just act as mother and sons. Just describing this time brings tears of joy to me. Thank you.

I am happy to report, that 7 days after our return from Texas, our grandchildren have shown remarkable improvement towards their mother and us grandparents.
